

Memorandum For: Director, DAS
Subject: "Watergate" Survey

The Economic and Scientific Division has polled its members regarding any contact with individuals known or suspected to be involved in "Watergate", or any knowledge or files they may have regarding the misuse of intelligence resources in the context of "Watergate". This survey was taken between 10 April and 10 May 1974.

No ESD personnel could recollect any contact with "Watergate"-related personnel, nor any reasons why their might have been contact. No files within the division were considered likely to contain "Watergate" related material. Because both of these parts of the survey failed to turn up any evidence related to "Watergate", we did not bother to contact any former ESD employees concerning this matter.
